SPAWAR Systems Center San Diego Awards Contract

SAN DIEGO — QinetiQ Inc. of Washington, D.C. is being awarded an indefinite delivery – indefinite quantity type contract with a potential maximum value of \$6,069,010 for Improved Specific Emitter Identification (I-SEI) systems and engineering support. Specific Emitter Identification (SEI) technology passively measures emitters, and characterizes unique emitter signatures that can be used for friendly or enemy emitter identification and fingerprinting. The contract employs a hybrid pricing structure to procure up to 32 I-SEI hardware systems with varying levels of ruggedization on a firm-fixed-price basis, and engineering support services on a cost-plus-fixed-fee basis. The contract has a five-year ordering period, and does not include any options. Manufacture of I-SEI hardware systems will occur in Malvern, United Kingdom; engineering support services will be performed in Norfolk, Va., (30%), and San Diego, Calif., (70%). Contract funds will not expire at the end of the current fiscal year. This contract was not competitively procured, as it is a sole-source contract award in support of the Department of Defense Foreign Comparative Test program. Space and Naval Warfare Systems Center, San Diego, Calif., is the contracting activity (N66001-05-D-5002).

For more information, contact:
